

Josué Daniel Merino Pineda

Santander, España · <https://www.linkedin.com/in/josue-merino-program> · +34 603 52 86 95 · josue091201@gmail.com

Full-Stack Developer with 5+ years of experience specializing in backend architecture with PHP/Laravel and frontend development using ReactJS/Typescript. Proven expertise in Computer Vision and Artificial Intelligence models (LLMs/RAG), with strong skills in database design (MySQL), containerization (Docker), and agile methodologies.

PROFESSIONAL EXPERIENCE

ICloudCompliance

Programmer

Valencia, Spain

July 2025 – December 2025

- Led the development of two innovative projects: an AI Chatbot (LLM) for compliance standard consultation and a Document Manager with defined roles and permissions.
- Responsible for the maintenance and evolution of compliance web products and auditing tools.

SIALI IT

Analyst Software

Guarnizo, Spain

December 2024 – July 2025

- I have developed projects for various companies implementing computer vision, with real-time camera vision.
- Creative design of intuitive web pages, implementing animations and highlighting relevant information for the client
- I have been involved in projects with renowned companies in the country such as Mercadona, GSK, etc.
- Experience in data acquisition and AI training for detection and segmentation
- Basic knowledge of FastAPI for rapid service implementation

VIACORE IT

Fullstack Developer

Santander, Spain

November 2023–May 2024

- I integrated ReactJS with TypeScript and Material UI to create interactive dashboards, visualizing complex data in an intuitive and accessible way for healthcare professionals.
- I developed a patient monitoring system for hospital relatives using Express.js, providing an accessible and efficient channel for communication with medical services.

FUNIBER

Backend Developer

Santander, Spain

January 2020–July 2023

- I broadened my skills by taking on frontend tasks (React/Vue) in legacy projects, ensuring smooth integration between layers.
- I designed end-to-end architecture (business logic, data models, APIs), managed multiple databases (MySQL), and implemented complex mathematical operations, using Docker for efficient deployment.

EDUCATION

EUROPEAN UNIVERSITY OF THE ATLANTIC

Computer Engineering

Santander, Spain

ADDITIONAL SKILLS

- Native in Spanish and fluent in English.
- Hungry for knowledge and never stop learning
